NEGOTIATED SERVICE AGREEMENT

Docket No.
R2012-1

**NOTICE OF UNITED STATES POSTAL SERVICE OF TYPE 2 RATE ADJUSTMENT,
AND NOTICE OF FILING FUNCTIONALLY EQUIVALENT AGREEMENT**

(October 14, 2011)

in accordance with 39 C.F.R. § 3010.40 *et seq.*, pursuant to authorization from its Governors, the United States Postal Service (Postal Service) hereby provides notice of a Type 2 rate adjustment, that results in improvement over default rates established under the Universal Postal Union (UPU) Acts for inbound letter-post items. This notice concerns a bilateral agreement with Singapore Post Limited (Singapore Post Agreement), which establishes a service for delivery confirmation scanning for Letter Post small packets.

The Commission determined that a previous agreement with China Post Group that is the subject of Docket No. R2010-6 (China Post 2010 Agreement) and the agreement with Koninklijke TNT Post BV and TNT Post Pakketservice Benelux BV that is the subject of Docket No. R2010-5 (TNT Agreement) should be included in the Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators 1 (MC2010-35, R2010-5 and R2010-6).¹ Subsequently, the Commission determined that

¹ PRC Order No. 549, Order Adding Inbound Market Dominant Multi-Service Agreements with Foreign Postal Operators 1 to the Market Dominant Product List and Approving Included Agreements, Docket Nos. MC2010-35, R2010-5, and R2010-6, September 30, 2010, at 12.

the inbound portion of the bilateral agreement with Hongkong Post filed in Docket No. R2011-4 (Hongkong Post Agreement) and the inbound portion of the bilateral agreement with China Post Group that is the subject of Docket No. R2011-7 (China Post 2011 Agreement) should be included in the Inbound Market Dominant Multi-Service Agreements with Foreign Postal Operators 1 product.²

Because, as discussed in this notice, the Singapore Post Agreement that is the subject of this docket is similar to the China Post 2011 Agreement, the Postal Service requests that the Singapore Post Agreement be included within the Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators 1 (MC2010-35, R2010-5 and R2010-6) product.

Attachment 1 to this Notice is the Postal Service's application for non-public treatment of these materials. A redacted copy of the Singapore Post Agreement is included in the public version of this filing as Attachment 2. The full text of the agreement and supporting financial documentation are being filed separately under seal with the Commission. A redacted version of the supporting financial documentation is included with this filing as a separate Excel file.

I. Notice of Agreement and Rate Adjustment

A. Criteria under Part 3010, Subpart D of the Rules of Practice and Procedure

The Postal Service provides the following answers, descriptions, and affirmations in response to the criteria for contents of a notice of agreement in support of a

negotiated service agreement, as provided in 39 C.F.R. § 3010.42. This statement provides support for the implementation of the Singapore Post Agreement and the establishment of the rates offered therein.

- (a) ... [A] notice of agreement that shall include at a minimum:*
- (1) A copy of the negotiated service agreement;*
 - (2) The planned effective date(s) of the proposed rates;*
 - (3) A representation or evidence that public notice of the planned changes has been issued or will be issued at least 45 days before the effective date(s) for the proposed new rates; and*
 - (4) The identity of a responsible Postal Service official who will be available to provide prompt responses to requests for clarification from the Commission.*

As described above, a copy of the Singapore Post Agreement is being filed under seal in connection with this filing. The agreement's inbound market dominant rates are planned to become effective on December 1, 2011. Public notice of these rates is being given through this Notice at least 45 days before the effective date. Mr. Kang Zhang, Director, Global Business Solutions, will be available to provide prompt responses to requests for clarification from the Commission.

- (b) A statement identifying all parties to the agreement and a description clearly explaining the operative components of the agreement.*

The parties to the Singapore Post Agreement are the United States Postal Service and Singapore Post Limited (Singapore Post), the postal operator for Singapore. The Singapore Post Agreement establishes a service for delivery confirmation scanning with Letter Post small packets, which is similar to the service for delivery confirmation scanning with Letter Post small packets established by the China Post 2010 Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement.

(c) Details regarding the expected improvements in the net financial position or operations of the Postal Service. The projection of change in net financial position as a result of the agreement shall include for each year of the agreement:

(1) The estimated mailer-specific costs, volumes, and revenues of the Postal Service absent the implementation of the negotiated service agreement;

(2) The estimated mailer-specific costs, volumes, and revenues of the Postal Service which result from implementation of the negotiated service agreement;

(3) An analysis of the effects of the negotiated service agreement on the contribution to institutional costs from mailers not party to the agreement; and

(4) If mailer-specific costs are not available, the source and derivation of the costs that are used shall be provided, together with a discussion of the currency and reliability of those costs and their suitability as a proxy for the mailer-specific costs.

The Postal Service provided the required information about expected financial improvements, costs, volumes, and revenues in the financial workpapers that it filed under seal with this Notice.

(d) An identification of each component of the agreement expected to enhance the performance of mail preparation, processing, transportation or other functions in each year of the agreement, and a discussion of the nature and expected impact of each such enhancement.

For the Singapore Post Agreement, operational improvements include the following.

- The parties have created a delivery confirmation service for Letter Post small packets, which is designed to track and report specified scanning events for customers in the country of origin and recipients in the United States.
- Annex 2 of the Singapore Post Agreement advises as to the labeling software and barcoding to be used by customers.

- Annex 5 of the Singapore Post Agreement suggests sortations for routing to the Postal Service's International Service Centers based on destination ZIP Codes.

(e) Details regarding any and all actions (performed or to be performed) to assure that the agreement will not result in unreasonable harm to the marketplace.

This agreement will not result in unreasonable harm to the marketplace.

Singapore Post maintains a generally dominant position in the market for Letter Post originating in its home country. Therefore, Singapore Post is the only entity in a position to avail itself of an agreement with the Postal Service of this type and scope. The United States' Private Express Statutes also generally prohibit entities other than the Postal Service from carrying inbound international letters commercially after entry at a U.S. port, at least below certain price and weight thresholds. The Postal Service is unaware of any private entity that would be able to serve the United States market for inbound Letter Post from Singapore on the terms and scale contemplated in this agreement.

In addition, the Postal Service and Singapore Post serve as their respective countries' designated operators for the exchange of mail, including in particular Letter Post, under rules set by the UPU. Designated operators ordinarily compensate one another for the delivery of Letter Post in accordance with terminal dues rates set by the UPU, unless a bilateral agreement is concluded.³ Because no other entities are in a position to serve as designated operators for the relevant types of mail either originating in Singapore or destined for the United States, and because no other entities are subject to terminal dues rates with respect to inbound Letter Post to the United States

³ See Universal Postal Convention Article 27 ¶ 9.

from Singapore, the market for the services offered under this agreement is in essence limited to its parties.

Because there is no significant competition in the relevant market when the inbound Letter Post flows are considered in totality, the Postal Service submits that the agreement is unlikely to pose competitive harm to the marketplace.⁴

(f) Such other information as the Postal Service believes will assist the Commission to issue a timely determination of whether the requested changes are consistent with applicable statutory policies.

In this docket, the Postal Service is presenting only an agreement to deliver Letter Post in the United States that is tendered by a foreign postal operator, i.e., negotiated rates for an inbound market dominant product.

B. Data Collection Plan

Under 39 C.F.R. § 3010.43, the Postal Service must include with its notice of agreement “a detailed plan for providing data or information on actual experience under the agreement sufficient to allow evaluation of whether the negotiated service agreement operates in compliance with 39 U.S.C. [§] 3622(c)(10).”⁵ The Postal Service intends to report information on this Agreement through the Annual Compliance Report. The Postal Service will continue to cooperate with the Commission to provide any necessary information about mail flows from Singapore within the course of the annual compliance review process. Therefore, the Postal Service proposes that no special data collection plan be created for this Agreement. Furthermore, with respect to performance measurement, because this Agreement covers “merely a grouping of other

⁴ This does not imply, however, that there is an absence of competition in this market. The market is liberalized to some degree, particularly for bulk business letters and heavier weight letter-post.

⁵ 39 C.F.R. § 3010.43.

products already being measured,”⁶ the Postal Service respectfully requests that it be excepted from separate reporting under 39 C.F.R. § 3055.3(a)(3). The Commission granted similar exceptions for the China Post 2010 Agreement, the TNT Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement.⁷

C. Statutory Criteria

Under 39 U.S.C. § 3622(c)(10), the criteria for the Commission’s review are whether the agreement (1) improves the net financial position of the Postal Service or enhances the performance of operational functions, (2) will not cause unreasonable harm to the marketplace, and (3) will be available on public and reasonable terms to similarly situated mailers. The first two criteria have been addressed in Part IA above. With respect to the third criterion, there are no entities that are similarly situated to Singapore Post in their ability to tender the broad-based Letter Post flows from Singapore under similar operational conditions, nor any other entities that serve as a designated operator for Letter Post originating in Singapore. Therefore, the Postal Service finds it difficult to conceive of a “similarly situated mailer” to which it could make a similar agreement available for each country-specific flow; accordingly, the Postal Service views this criterion as inapplicable in this instance.⁸ Because all of the criteria set forth in 39 U.S.C. § 3622(c)(10) have been met, the Postal Service respectfully

MC2009-7 and R2009-1, December 31, 2008, at 9-10 (“Given its narrow characterization of the underlying Agreement, the Postal Service’s position [as to ‘similarly situated mailers’] is correct. For purposes of this proceeding, the Commission concludes that it would be largely an academic exercise to consider whether a broader characterization should be employed.”).

urges the Commission to act promptly by allowing the Agreement's rates to be implemented under 39 C.F.R. § 3010.40, as requested.

II. Functional Equivalence

The Singapore Post Agreement that is the subject of this docket is functionally equivalent to the China Post 2010 Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement. The terms of the Singapore Post Agreement fit within the proposed Mail Classification (MCS) language for Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators 1.⁹ Therefore, the Singapore Post Agreement and the agreements that have been previously included in the Inbound Market Dominant Multi-Service Agreements with Foreign Postal Operators 1 product conform to a common description.

The Singapore Post Agreement, the China Post 2010 Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement are constructed from a similar template and contain many similar terms and conditions. All four agreements establish a service for delivery confirmation scanning with Letter Post small packets. Each contract is with a foreign postal operator. The cost characteristics of the four agreements, as they relate to services for delivery confirmation scanning with Letter Post small packets, are similar.

Therefore, the Postal Service submits that the Singapore Post Agreement is functionally equivalent to the China Post 2010 Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement and should be added to the market dominant product list within the same Inbound Market Dominant Multi-Service

⁹ See 1602.4 Inbound Market Dominant Multi-Service Agreements with Foreign Postal Operators, Suppl MCS Markup 7 28 2011, Additional Supplemental Comments of United States Postal Service on Mail Classification Schedule, Docket No. RM2011-8, July 29, 2011, at 208.

Agreements with Foreign Postal Operators 1 product listing.¹⁰ There are, however, differences between the Singapore Post Agreement and the China Post 2010 Agreement, the Hongkong Post Agreement, and the China Post 2011 Agreement. The Postal Service provides the following comparison of the Singapore Post Agreement with the China Post 2011 Agreement.¹¹ Differences between the two agreements include the following:

- The Singapore Post Agreement and the China Post 2011 agreement are with different foreign postal operators. As a result, the name and address of the foreign postal operator with whom the agreement is made is different in the title, first paragraph, the article concerning notice (Article 15), signature block and throughout the agreement.
- Article 1 of the Singapore Post Agreement states that the purpose of the agreement is just to develop a new packet with delivery scanning product for small packets.
- An article concerning Guiding Principles of the Agreement similar to Article 2 of the China Post 2011 Agreement is not included in the

¹⁰ As noted in the Postal Service's earlier classification request, "[i]f these agreements are added under a single product heading within the First-Class Mail class, then, presumably, other subsequent agreements similar to these instruments for country-specific inbound flows of Letter Post would be presented to the Commission under cover of a notice of filing, without the need for a separate classification request accompanying each such agreement." Request of United States Postal Service to Add Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators to the Market Dominant Product List, Notice of Type 2 Rate Adjustments, and Notice of Filing Two Functionally Equivalent Agreements (Under Seal), Docket Nos. MC2010-35, R2010-5, and R2010-6, August 13, 2010, at 14.

¹¹ The China Post 2010 Agreement and the TNT Agreement were added simultaneously to the market dominant product list as functionally equivalent in Docket Nos. MC2010-35, R2010-5, and R2010-6, without indicating which would serve as the "baseline" for functional equivalence comparisons with future agreements. In PRC Order No. 871, which concerned the China Post 2011 Agreement, at 6-7, the Commission stated that "[b]ecause the Postal Service has not identified a 'baseline agreement,' the current agreements collectively serve as the measure for functional equivalence. The Commission may review this issue further in the event that the Postal Service does submit an agreement to be considered a baseline agreement." The Postal Service believes that the comparison provided here is illuminating and appropriate.

Singapore Post Agreement. As a result, all subsequent article numbers and references to subsequent article numbers in the Singapore Post Agreement have been revised.

- Article 2, Oversight and Effective Date, of the Singapore Post Agreement does not include the requirement that the agreement shall come into effect after both parties have signed a separate accord concerning the Accounting Business Rules related to the agreement.
- The title of Article 4 includes the additional words “related to Conditions Precedent and Termination.”
- Paragraph 3 of Article 8, Termination, is slightly different because the default rates applicable for the Singapore Post Agreement are different.
- Article 9, Governing Law, is slightly different than the similar article in the China Post 2011 Agreement.
- Article 10, Dispute Resolution, Article 11, Indemnification and Liability, and Article 13, Confidentiality Requirements, are different as a result of negotiations between the Parties.
- Article 21, Entire Agreement, is different because there are no previous agreements between the Postal Service and Singapore Post concerning the products covered by the agreement.
- Article 22, Term, is different because the agreement just concerns settlement rates for delivery scanning for Letter Post small packets, and the agreement is to remain in effect for one calendar year after the Effective Date of the agreement.

- An additional Article 25, concerning Paragraph Headings and Reference Citations, is included in the Singapore Post Agreement.
- Annex 1 of the Singapore Post Agreement reiterates the disclaimer of Articles 3 and 4 of the agreement.
- The rates and the explanatory terms included in Annex 1 of the Singapore Post Agreement concern only the small packet with delivery scanning product from Singapore to the United States.
- In Annex 2 of the Singapore Post Agreement, the Package Dimensions and Weight requirements are more specifically described.
- Annex 2 advises as to the labeling software and barcoding to be used by customers.
- Annex 2 states clearly that Registered Mail may not be commingled in receptacles containing Small Packet with Delivery Scanning items.
- Annex 3 of the Singapore Post Agreement includes a different label sample.
- Annex 5 of the Singapore Post Agreement includes routing details relevant only to Small Packet with Delivery Scanning items.

The Postal Service does not consider that the specified differences detract from the conclusion that the Singapore Post Agreement is functionally equivalent to the China Post 2011 Agreement and other agreements in the Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators 1 product grouping.

III. Application for Non-Public Treatment

The Postal Service maintains that certain portions of the agreement and related financial information should remain confidential. In accordance with 39 C.F.R. § 3007.21, the Postal Service files as Attachment 1 to this Request its application for non-public treatment of materials filed under seal. A full discussion of the required elements of the application appears in Attachment 1.

IV. Conclusion

For the reasons discussed, the Postal Service believes that the agreement with Singapore Post discussed herein should be added to the product listing for Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators 1 product.

In accordance with the provisions of 39 C.F.R. §3055.3(a)(3), the Postal Service also asks that the Commission approve an exception to the performance reporting requirements for all contracts added to the Mail Classification Schedule as Inbound Market-Dominant Multi-Service Agreements with Foreign Postal Operators because the performance of the products covered by those agreements is already included in the measurement of other products.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21 and Order No. 225,¹ the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to the inbound market dominant agreement between the Postal Service and Singapore Post Limited (Agreement) filed in this proceeding. The Agreement and supporting documents establishing compliance are being filed separately under seal with the Commission. A redacted copy of the Agreement is filed with the Request as Attachment 2. In addition, a redacted version of the supporting financial documentation is included with this public filing as a separate Excel file.

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

The materials designated as non-public consist of information of a commercial nature that would not be publicly disclosed under good business practice. In the Postal Service's view, this information would be exempt from mandatory disclosure pursuant to 39 U.S.C. § 410(c)(2) and 5 U.S.C. § 552(b)(3) and (4).² Because the portions of the materials that the Postal Service is

¹ PRC Order No. 225, Final Rule Establishing Appropriate Confidentiality Procedures, Docket No. RM2008-1, June 19, 2009.

² In appropriate circumstances, the Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial

applying to file only under seal fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of the instant Agreement, the Postal Service believes that the only third party with a proprietary interest in the materials is the foreign postal operator with whom the contract is made. Through text in the Agreement, the Postal Service has already informed the postal operator, in compliance with 39 C.F.R. § 3007.20(b), of the nature and scope of this filing and the operator's ability to address its confidentiality concerns directly with the Commission. Due to the sensitive nature of the Postal Service's rate relationship with the affected foreign postal operator, the Postal Service proposes that a designated Postal Service employee serve as the point of contact for any notices concerning the Agreement. The Postal Service identifies as an appropriate contact person Mr. Kang Zhang, Director, Global Business Solutions. Mr. Zhang's phone number is (202) 268-8918, and his email address is kang.zhang@usps.gov.³

transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A). The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ The Postal Service acknowledges that 39 C.F.R. § 3007.21(c)(2) appears to contemplate only situations where a third party's identification is "sensitive" as permitting the designation of a Postal Service employee who shall act as an intermediary for notice purposes. To the extent that the Postal Service's filing might be construed as beyond the scope of the Commission's rules, the

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Request filed in this docket, the Postal Service included an Agreement and financial work papers associated with that Agreement. These materials were filed under seal, with redacted copies filed publicly, after notice to the affected postal operator. The Postal Service maintains that the redacted portions of the Agreement and related financial information should remain confidential.

With regard to the Agreement filed in this docket, the redactions withhold the actual prices being offered between the parties under the Agreement, as well as certain negotiated terms. The redactions applied to the financial work papers protect commercially sensitive information such as underlying costs and assumptions, negotiated pricing, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the work papers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b).

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the Agreement that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. Information about negotiated pricing is commercially sensitive, and the Postal Service does not believe that it would be disclosed

Postal Service respectfully requests a waiver to designate a Postal Service employee as the contact person under these circumstances, for the reasons provided in the text above.

under good business practices. Foreign postal operators could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. Competitors could also use the information to assess the offers made by the Postal Service to foreign postal operators or other customers for any possible comparative vulnerabilities and focus sales and marketing efforts on those areas, to the detriment of the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The financial work papers include specific information such as costs, assumptions used in pricing decisions, the negotiated prices themselves, projections of variables, and contingency rates included to account for market fluctuations and exchange risks. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing, in light of statutory, regulatory, or policy constraints. Thus, competitors would be able to take advantage of the information to offer lower pricing to postal customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant inbound delivery services markets. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the Agreement or from the information in the workpapers whether additional margin

for net contribution exists under Agreement's prices. The settlement charges between the Postal Service and the foreign postal operator constitute costs underlying the postal services offered to each postal operator's customers, and disclosure of this cost basis would upset the balance of Postal Service negotiations with contract customers by allowing them to negotiate, rightly or wrongly, on the basis of the Postal Service's perceived supplier costs. From this information, each foreign postal operator or customer could also attempt to negotiate ever-decreasing prices, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even the foreign postal operator involved in the Agreement at issue in this docket could use the information in the work papers in an attempt to renegotiate the rates in its instrument by threatening to terminate its current Agreement.

Price information in the Agreement and financial spreadsheets also consists of sensitive commercial information of the foreign postal operator. Disclosure of such information could be used by competitors of the foreign postal operator to assess the foreign postal operator's underlying costs, and thereby develop a benchmark for the development of a competitive alternative. The foreign postal operator would also be exposed to the same risks as the Postal Service in customer negotiations based on the revelation of their supplier costs.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Harm: Public disclosure of the prices in the Agreement, as well as any negotiated terms, would provide foreign postal operators or other potential customers extraordinary negotiating power to extract lower rates from the Postal Service.

Hypothetical: The negotiated prices are disclosed publicly on the Postal Regulatory Commission's website. Another postal operator sees the price and determines that there may be some additional profit margin below the rates provided to either operator. The other postal operator, which was offered rates comparable to those published in the Agreement, then uses the publicly available rate information to insist that it must receive lower rates than those the Postal Service has offered.

Harm: Public disclosure of information in the financial work papers would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing delivery service obtains unredacted versions of the financial workpapers from the Postal Regulatory Commission's website. It analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to comply with business or legal considerations regarding cost coverage and contribution to institutional costs. It then sets its own rates for products similar to what the Postal Service offers its customers below that threshold and markets its purported ability to beat the Postal Service on price for international delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of one or more relevant international delivery markets. Even if the competing providers do not manage wholly to freeze out the Postal Service, they will significantly cut into the revenue streams upon which the Postal Service relies to finance provision of universal service.

Harm: Public disclosure of information in the financial workpapers would be used detrimentally by the foreign postal operator's competitors.

Hypothetical: A competing international delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the workpapers to assess the foreign postal operator's underlying costs for the corresponding products. The competitor uses that information as a baseline to negotiate with U.S. companies to develop lower-cost alternatives.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international delivery products (including both private sector integrators and foreign postal operators), as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products (including other postal operators) should not be provided access to the non-public materials. This includes the counter-party to the Agreement with respect to all materials filed under seal except for the text of the postal operator's Agreement, to which that counter-party already has access.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof; and

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless

the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

SINGAPORE POST LIMITED – UNITED STATES POSTAL SERVICE SMALL PACKET WITH DELIVERY SCANNING BILATERAL AGREEMENT

This Agreement ("Agreement") is between the United States Postal Service ("USPS"), an independent establishment of the Executive Branch of the Government of the United States with offices at 475 L'Enfant Plaza, SW, Washington, DC 20260, and Singapore Post Limited ("Singapore Post Limited"), a company incorporated under the laws of the Republic of Singapore and having a place of business at 10 Eunos Road 8, Singapore Post Centre, Singapore 408600. The USPS and Singapore Post Limited may be referred to individually as a "Party" and together as the "Parties."
